or choose a new one
- 3 confirm your identity
- 4 choose the payment method
- 5 you can also acquire superfast nju  
optical fibre and get a PLN 3 discount  
per month on nju mobile service

## why is it worth it?

### fast internet

you send and download  
data as fast as never  
before in the optical fibre  
offer and through the 5G  
network in the mobile offer

### full convenience

you download a simple  
mobile application and  
manage the service yourself  
on your phone

### easy payments

you have a choice of  
modern payment methods:  
card payment, BLIK  
or online payment

### speed and modern technology

the whole purchase  
process takes place  
through the app or the  
website – no need to visit a  
shop, just order and it's up  
and running

### ecology

no need to sign paper  
documents, everything  
can be done online, even  
identity verification

### no invoices

you no longer need to  
remember to make  
payments – they are  
collected automatically  
each month
